

SUNRISE MIDDLE SCHOOL

AFTER SCHOOL PROGRAM SURVEY RESULTS, EVALUATION AND REPONSE

Sunrise surveyed all of its students and parents in the after school program in November, 2021. Nearly all of the students responded, except for those who were absent. About 75 percent of our parents responded.

Sunrise is pleased with the results of the survey, which show a high rate of satisfaction with the program.

We have taken steps to improve in areas where we were not as strong and are continuing in those areas.

Here are the results of our survey and the actions we have taken since that time.

Do you or your child feel safe in the after school program?	100% of students said yes 100% of parents said yes	We are continuing to find new ways to keep our program safe and supportive for all students.
Is the program helping you or your student in their learning?	100% of students said yes 100% of parents said yes	We will continue to provide assistance to students with their classwork and homework.
Is the program academically challenging?	59% of students said yes 65% of parents said yes	The after school program staff has responded in these ways: <ol style="list-style-type: none"> 1. We have talked with the teaching staff and asked them to provide more challenging homework. 2. We now have more teachers working in the after school program providing math and writing intervention.

		<ol style="list-style-type: none"> 3. We make sure the students complete all of their homework before they may go outside for recreation and sports. 4. We have started to devote time each Wednesday to checking student backpacks and making sure they are well organized and that homework is being turned in. This now also is required before students can go out to play. 5. After school program staff are spending some time in the day program learning more about what their students are learning. This translates into better help during the after school program.
Does the program help the students develop leadership skills?	87% of students said yes 90% of parents said yes	Since the November 2021 survey, the program has instituted more opportunities for leadership growth. Students have various responsibilities in running the program. Aimee Cheng was hired to run a leadership group for the 5 th to 7 th graders. They plan activities and events. The day program 8 th grade leadership group also does activities during the after school program, such as preparing for the Valentines Day dance.
Does the program promote healthy eating and exercise?	83% of students said yes 96% of parents said yes	We will conduct more health-related talks and activities in the after school program.

Are the after school program staff members highly qualified?	93% of students said yes 95% of parents said yes	
Are the program's goals clear?	90% of students said yes 100% of parents said yes	
Does the program do enough to involve the families and outside agencies?	70% of students said yes 97% of parents said yes	We will continue to involve outside agencies such as the REACH athletic league, WarBow League for archery, the Futsal League, etc.
Does the program constantly try to get better?	95% of students said yes 100% of parents said yes	
Does the program seem to be well run?	93% of students said yes 96% of parents said yes
